

Free to Reduce

To whom it may concern:

As a leader in energy conservation services, we would like to encourage residential Puget Sound Energy users to take advantage of our "Free to Reduce" campaign. As part of this campaign, we will be distributing 18 Watt compact fluorescent lamps to any Puget Sound Energy Customer. An 18 Watt lamp compares to a 75 W incandescent lamp, and can save you as much as \$45 during the life of the lamp. These packages of 15 lamps comes at no cost to you. Simply take a moment to fill out the request form below, and they will be delivered to your door.

Energy Conservation Services has other energy saving services available, including additional Energy Star compact fluorescent lamp and fixture options and comprehensive solutions for businesses. If you would like additional information on these services, please indicate below by marking a corresponding box. We will only contact you if you indicate that you would like further information.

Name: _____

Address: _____

A valid address with a Puget Sound Energy service must be supplied to qualify for the complimentary CFL's.

Phone # (optional) _____
